MEET BUNDELA

DEVOPS ENGINEER

meetlearns@gmail.com | +91 72288 80828 | Rajkot, Gujarat, India | linkedin.com/in/meetbundela | meetbundela.in

PROFESSIONAL SUMMARY

DevOps Engineer with 2.5+ years of hands-on experience running production infrastructure on **AWS**, **Hetzner** and **DigitalOcean**. Leads a team of three DevOps engineers at Multiicon, owning the observability platform, Kubernetes workloads and CI/CD across Linux and Windows Server estates. Previously migrated a SaaS product from on-prem to Kubernetes at 99%+ uptime and operated a live Thorchain validator node on AWS EKS.

WORK EXPERIENCE

DevOps Engineer | Multiicon Rajkot, Gujarat, India — **May 2026 – Present**

- Lead a team of **3 DevOps engineers**: plan and assign work and review infrastructure and pipeline changes.
- Built a central observability stack with **Prometheus, Grafana, Loki, Tempo and Alloy** covering metrics, logs and traces for Ubuntu Linux and Windows Server hosts.
- Run **Docker and Kubernetes** workloads on cloud platforms, reworked the **CI/CD pipelines** for higher availability and faster deployments, and administer mixed-OS **AWS** and hybrid environments with security baselines.
- Wrote **Python** scripts to migrate data from **Jira** to self-hosted **OpenProject** and keep the two in sync over their APIs, cutting manual admin work.
- Built a Jira analytics app from scratch, ready for open source, and set up **Backstage** as the developer portal.

DevOps Engineer | Pedals Up Ahmedabad, Gujarat, India — **Aug 2025 – Apr 2026**

- Deployed and operated a **Thorchain validator node** on AWS EKS using StatefulSets, Persistent Volumes and Helm charts; the node went live on mainnet.
- Managed the cluster lifecycle for high availability (upgrades, scaling, secrets, incident response) and set up CI/CD pipelines with Prometheus and Grafana alerting.

DevOps Engineer (Dedicated) | Evolution Infosystem Rajkot, Gujarat, India — **Apr 2025 – Aug 2025**

- Sole DevOps owner for the company's SaaS products: cloud infrastructure, CI/CD and deployments end to end.
- Deployed **Prometheus and Grafana** with Node Exporter and alert rules; configured NGINX reverse proxy, Certbot SSL and a bastion host.

DevOps Engineer | Wings Tech Solutions Rajkot, Gujarat, India — **May 2024 – Mar 2025**

- Sole DevOps owner for **cTrunk** (courier management) and **Vani** (studio SaaS) on **Hetzner Cloud**. Led the move from on-prem to cloud, containerised both with Docker and ran them on **Kubernetes**, reaching **99%+ uptime** with auto-healing and rolling deployments.
- Managed cloud infrastructure and Jenkins CI/CD for **RRB Ahmedabad** (Government of India), **Captain Tractors** and **Brooon** across AWS and DigitalOcean.

TECHNICAL SKILLS

Cloud	AWS (EC2, S3, VPC, EKS), GCP, Azure, Hetzner Cloud, DigitalOcean
Containers	Kubernetes, Docker, Podman, Helm, ArgoCD
IaC & CI/CD	Terraform, Ansible, CloudFormation, GitHub Actions, GitLab CI, Jenkins, Python, Shell
Observability	Prometheus, Grafana, Loki, Tempo, Alloy, Node Exporter, alerting
Systems & Tooling	Linux (Ubuntu), Windows Server, NGINX, Git, Backstage, Jira, OpenProject, MongoDB, Redis
Languages	English (professional), Hindi and Gujarati (native)

EDUCATION

Master of Computer Applications (MCA)
The Oxford College of Engineering, Bangalore
Nov 2021 – Nov 2023 | CGPA 8.0 / 10

CERTIFICATIONS

AWS Certified Cloud Practitioner
Amazon Web Services | Issued Mar 2023, expired Mar 2026
Validation No. MT19KE5KR11QQKKW

ACHIEVEMENTS

- **Guinness World Record:** participant in the IIT Madras x GUVI 24-hour programming-teaching record.
- **Ideathon winner** (Zebra energy innovation) and **published researcher**: "Third Eye" IoT intrusion detection, ICRACSIT.
